***A new KBS®-partner for  
Australia, Indonesia and  
New Zealand***

Dear **KBS®** Partners,

We are very pleased to inform you that from July 1, 2009 we have a new distributor for Australia, Indonesia and New Zealand.

Sean Ritchie will give focus on the growth of the fire protection business in Canada and USA and gave his distribution rights for Australia, Indonesia and New Zealand to Antec Engineering Pty. Ltd. The CEO of Antec is John Clare.

Sean, “thank you” for all your good work you have done the last years and welcome to John in our KBS-family. We wish both of you success for the growth of your business. If you need our assistance, please let us know.

If you are interested in more information about Antec Engineering, please have a look under **[www.antec.com.au](http://www.antec.com.au)**

**ANTEC** Quality equipment. Expert service.

**Choosing the Best Products for Your Installation**

**smart engineering**

Antec is constantly researching new ways to improve plant throughput and capacity.

Our thin lining anchor systems, dovetail anchor system strips and single hex cells all provide flexibility, increased span coverage and increased furnace life.

Talk to us about how we can give you greater performance, reduced time for repairs and stronger running capacity.
